

# Blue Cross and Blue Shield of Minnesota FlexRx Preventive Drug List

Large Group

Updated January 1, 2026

Your employer may have elected to include a Preventive Drug coverage feature with your prescription benefit plan. Below is the list of medications available under your Preventive Drug coverage. The actual cost of the medication will be applied toward the preventive benefit offered by your employer, allowing you to receive coverage even if you have not met your deductible.

This list will be reviewed at least annually and is subject to change at any time.

The drugs listed below are grouped into broad categories. Each category includes an alphabetical list of drugs. Generic prescription drugs are shown in lower-case boldface type. Many generic drugs include mention of a brand name drug in parentheses as a reference. Some generic drugs have no reference to a brand. Brand prescription drugs are shown in capital letters followed by the generic name. Generic drugs are available for many of the brand-name drugs listed though may not be available in all strengths.

## NOTE:

This list may not apply. Check your coverage or other plan information for benefit details.

Should this list apply to your benefit plan, your employer may not cover all categories included in this list.

Please refer to your specific coverage. Coverage information may be included in a Benefit Booklet, Certificate of Coverage, Contract, Member Handbook, or prescription drug endorsement. Or call the number on the back of your member ID card if you have questions about your coverage.
