UNDERSTANDING YOUR HEALTH PLAN

Having health insurance means you and a health plan share in paying your medical costs. The plan tracks what you pay in medical costs and applies eligible costs toward certain milestones. When your costs hit these milestones, you move into the next stage of your plan. Your share of costs becomes less as you reach each stage. Here's how it works:

Stage 1: Deductible

Each year, you pay for all covered medical services until you meet your deductible.

Your deductible and coinsurance **count toward** your out-of-pocket maximum.

Stage 2: Coinsurance

Then, the health plan starts sharing a percentage of your costs until you reach your out-of-pocket maximum. Example: 80/20 coinsurance means the plan pays 80 percent and you pay 20 percent.

Stage 3: Out-of-pocket maximum

At this point, the health plan pays all your covered medical costs for the rest of the plan year.*

*Covered medical costs up to the lifetime maximum.

Knowing some common health plan terms regarding costs can help you make more informed decisions and get more from your plan. See glossary for additional terms.

Premium

The regular payment you make throughout the year to keep your plan active

Your employer may pay part of your premium.

Your premium **does not count toward** your deductible or out-of-pocket maximum.

Covered medical costs

The medical services your plan covers

"Covered" means your plan pays for some or all of the costs. These are different in each plan.

Your covered costs **usually count toward** your deductible and out-of-pocket maximum.

Over-the-allowed-amount costs

The health plan and in-network providers have agreed to an "allowed amount" (the most a provider can charge you). If you receive a covered service from a nonparticipating provider who charges over the allowed amount, this additional cost is your responsibility.

Costs over the allowed amount **do not count toward** your deductible and out-of-pocket maximum.

Non-covered services

"Non-covered" refers to medical services not covered by your plan

If you receive these services, you pay in full.

Services not covered by your plan **do not count toward** your deductible and out-of-pocket maximum.

Copays

A set cost you pay every time you get medical care or a prescription

Copays can vary based on where you get care (virtual, clinic, urgent care, etc.).

Your copays do not count toward your deductible but **do count toward** your out-of-pocket maximum.

CHOOSING A PLAN: THINK ABOUT YOUR NEEDS

When choosing a plan, think about how much medical care, including prescriptions, you (and your dependents) expect to need within the plan year.

Higher-premium plan with lower deductibles

This type of plan may be a good option if you (and your dependents):

- See a doctor regularly
- Need regular prescription medications, specialty medications or medical equipment
- Are expecting to have surgery, give birth or other major medical care

You'll pay more for your premium, but generally your out-of-pocket costs will be less when you get care. Be sure you can afford the higher premium because you will pay this regularly.

Lower-premium plan with higher deductibles

This type of plan may be a good option if you (and your dependents):

- Don't expect to need much medical care
- Don't need regular prescription medications, specialty medications or medical equipment

You'll pay less for your premium, but generally your out-of-pocket costs will be higher when you get care. Be sure you can afford out-of-pocket medical costs if you need care unexpectedly.

IN GENERAL:

- **Higher premium =**
Lower out-of-pocket costs
- **Lower premium =**
Higher out-of-pocket costs

Out-of-pocket costs include:

- Deductible
- Copays
- Coinsurance
- Non-covered services
- Over-the-allowed-amount costs

See glossary for definitions.

Stay in network

You can save money on your healthcare costs by making sure you choose an in-network provider. These are doctors, hospitals and clinics within your network. If keeping your current doctor is important to you, be sure to check if that doctor is in the network you're considering. If the provider isn't in the network, it may cost you more.

Log in at bluecrossmn.com/BCA to search providers in your specific network. Not a member? Visit bluecrossmn.com/FindADoctor and select the network you are considering.

NETWORKS

A network is a group of doctors, clinics, hospitals and other healthcare providers that have contracted with a health plan to provide your care at a lower cost. Check to see if your preferred providers are in network. Log in at bluecrossmn.com/BCA to search providers in your specific network. Not a member? Visit bluecrossmn.com/FindADoctor.

PHARMACY BENEFITS

Blue Cross works with Prime Therapeutics to provide you a pharmacy network (pharmacies that have an agreement with Blue Cross) and a formulary (drug list). Using your pharmacy network and formulary medications can help you save money.

To find an in-network retail pharmacy and check to see if a drug is covered, log in to your member website.

- **Pharmacy search:** *Your pharmacy network name is listed on your benefit chart.* If you go to an out-of-network pharmacy, you may pay the full cost of the prescription.
- **Medication search:** *The name of your formulary or medication list is listed on your benefit chart.* Medications not on your formulary may cost you more.

Log in to your member website to learn more about pharmacy benefits.

3 WAYS TO SAVE ON PRESCRIPTION MEDICATIONS

GLOSSARY — TERMS TO KNOW

Allowed amount: The amount Blue Cross has agreed to pay a specific provider for a covered service.

Coinsurance: This payment structure starts after meeting your deductible. In coinsurance, you and the plan each pay a percentage for covered services. Example: 80/20 coinsurance means the plan pays 80 percent and you pay 20 percent.

Convenience or retail clinic: These clinics treat a limited list of common illnesses. They are often located in or near a retail store.

Copay: A fee you pay every time you get care or a prescription. Copays can vary based on where you get care (virtual, clinic, urgent care, etc.).

Cost sharing: Refers to the member sharing medical costs with the health plan through copays, deductible and coinsurance.

Deductible: The dollar amount you must pay for most covered services each calendar year before the health plan begins to pay for benefits.

Eligible or covered services: Healthcare covered by your plan.

Embedded deductible: Plan begins paying benefits that require cost sharing for the first family member who meets the per-person deductible. Once one or more of the remaining family members meet the family deductible the plan pays benefits for all covered family members.

Explanation of Benefits (EOB): A letter you receive after getting care that shows costs, the amount the health plan is expected to pay and the amount you are expected to pay. You do not pay anything when you receive an EOB. An EOB is not a bill.

Formulary or drug list: A list of FDA-approved prescription drugs covered by your health plan. To help ensure you get the right drugs for your needs, some drugs may require prior authorization, step therapy, and/or quantity limits.

Health plan: Can refer to your health insurance company or your specific health plan.

In-network: Providers or pharmacies in your plan's network that give you the most coverage (lowest cost). Note: An in-network provider is not the same as a participating provider.

Member website: A secure website for accessing plan details and cost information as well as health and wellbeing tools.

Nonparticipating provider: A provider that does not have a contract with the health plan. You pay in full when using these providers. Note: A nonparticipating provider is not the same as an out-of-network provider.

Out-of-network: A provider or pharmacy that has a contract with the health plan but is not part of your plan's network. You may pay more when using these providers/pharmacies. Note: An out-of-network provider is not the same as a nonparticipating provider.

Out-of-pocket expense/cost: Refers to costs the member pays: premium, copay, deductible, coinsurance, and non-covered services or over-the-allowed-amount costs.

Out-of-pocket (OOP) maximum: This is the last milestone you hit by paying for covered medical services. Once you reach this amount, the plan pays for all covered in-network services for the plan year's remainder.

Participating provider: A provider that has a contract with the health plan, and may be in or out of your plan's network. Note: A participating provider is not the same as an in-network provider.

Premium: Your monthly payment, like a membership fee. Your employer may pay part of your premium. You may also be able to pay your premium pretax from your paycheck.

Provider: Refers to doctors, clinics, hospitals, pharmacies and other healthcare professionals.

Service (also called "care"): Medical procedures, treatment, and prescription drugs.
